M.S Program Highlights:

- First in UAE in the area of specialty
- It will provide opportunities for interested students
- Moderate fee
- Meets the need for Master's program in UAE & Middle East
- One year thesis will promote research & publication
- Relevant courses designed with on site training

M.S Program - The Need:

- To train experts to work in UAE, Middle East and other countries
- No Master's program in these specialities in UAE as on date
- Master's program will help us to prepare ground for PhD
- To provide specialists to work in Hospitals, Community, Industry, Academia and Govt.
- To implement Rational Drug Use, Good Manufacturing Practices and to work in R&D.
- To facilitate the availability of competent faculty

Career opportunities:

Community Pharmacy (Private) | Primary Health Centers | Hospital & Clinical Pharmacy | Professional Services Representative | Product Service Specialist | Government and Private Sector | Research & Development | Academic Institutions | Pharma Industry

Important Dates:

Applications will be received by e-mail from 1st June 2011 onwards for Sept 2011 session and from 1st Dec 2011 for Feb 2012 session

Applications of candidates fulfilling all the admission requirements will be processed immediately and the applicant will be informed of the admission status at the earliest.

Master of Science in Pharmacy Practice

At the end of two year curriculum, the students shall be able to:

Prepare for evidence based pharmacy practice in the changing health care environment of the 21st century.

Develop a mastery of the knowledge base in pharmaceutical and clinical sciences essential to fulfill all of the roles of pharmacy practitioners.

Demonstrate skills in the technical, social and behavioral aspects of pharmacy, including communication skills.

Illustrate the integration of knowledge and skills in the optimization of medication management for a wide range of people.

Acquire the skills and attitudes necessary for a commitment to lifelong learning including skills to retrieve, critically appraise, disseminate and apply new knowledge.

Develop a professional and compassionate approach to critically evaluate and assess the health care.

Master of Science in Pharmaceutical Chemistry

The two-year curriculum has been designed to achieve the following goals:

To provide a comprehensive pharmaceutical education leading to M.Pharm Degree in Pharmaceutical Chemistry.

To prepare for drug discovery in the changing and challenging health care environment of the 21st Century using the knowledge of organic, bioorganic and computer aided methods.

To integrate medicinal chemistry with related pharmaceutical sciences to enable the students to apply their knowledge to drug development

To integrate analytical skills to enable the students ensure quality pharmaceutical products and care.

To develop a professional for the Isolation, synthesis and analysis of drugs

To understand the relationship between chemistry, pharmacokinetics and pharmacology of drugs

To provide industry and laboratory based pharmacy education program.

To prepare pharmacists who can function effectively in the social health care system.

Contributing to social development through research on pharmaceutical sciences.

RAK College of Pharmaceutical Sciences

Vision:

To be a leading college of pharmaceutical sciences in the UAE and to ensure an enriching future for the student community.

Mission:

RAK College of Pharmaceutical Sciences is committed through its offering of academic programs to make a valuable contribution to patient and health care system by promoting the advancement of knowledge and research.

How to get in: Admission criteria for Master of Science in Pharmacy

1. Minimum CGPA (Cumulative Grade Point Average) of 3.0 on a 4.0 scale in Bachelor of Pharmacy Program of RAK MHSU or its equivalent.
2. Proficiency in English equivalent to a TOEFL score of 550 in paper based, 79 on Internet based or its equivalent of standardized test such as IELTS score of 6.0.

Other Programs at RAKCOPS

- Bachelor of Pharmacy (B.Pharm)
